

Learning Science
While Having a Lot of Fun!

Little Volcanoes Science Club
SUMMER TERM 2024
Moss Hall Junior School

Little Volcanoes Science Club is for all little explorers and curious minds that are ready to do something different!

Each lesson is a unique combination of interesting experiments and sensory hands-on activities with drama, puppetry and singing. It is led by an enthusiastic and highly qualified teacher with 24+ years teaching experience. Children will learn a variety of scientific topics across Biology, Chemistry, Physics, Astronomy, Geography and History, while having a lot of fun. Children will learn about forces, and where things come from; explore chemical processes in living organisms, and learn about interesting plants and animals. They will develop their analytical, practical and social skills; enjoy sensory and hands-on activities; and expand their vocabulary while learning about the world around them.
